

## Prepare Solutions with Confidence

### Simple and Affordable

#### Easy Dispensing Applications

The instrument automatically prepares your standards. Simply input the weight of your sample and set a target concentration. Minimize manual transcription errors by connecting a MS, ML, or ME balance for automatic weight transfer.

#### Clear Guidance

Designed for simplicity, the Easy Dose starts your routine task with a tap on the home screen. The user interface speaks your language – and 14 others. Learning and using a new analytical instrument has never been easier.

#### Simple Operation

Operate the instrument with the touchscreen, or the new responsive USB wheel controller. The wheel synchronizes effortlessly with the 4.3 inch touchscreen, offering exact control and a comfortable operation.

#### iTitrate for Easy Programming

iTitrate Intelligence makes method programming simple with EasySetup guidance. Set only the minimal parameters and the instrument programs the rest, including results calculated with your desired units.

#### Easy Dose

Simplify and speeds up your everyday standard preparation and dispensing tasks. Dispensing tasks can be based on volume, speed, and time to tailor applications depending on your requirements. The simple user interface increases efficiency and simplicity. iTitrate Intelligence's guided set-up assists in method programming to ensure samples are prepared consistently, regardless of operator, and with minimal effort. Automatically export your results to a USB flash drive, or print them directly using a USB printer.
