

Protect workers, reduce fire risks, and improve productivity by storing flammable fuels and chemicals in code-compliant safety cabinets. Designed to meet OSHA and NFPA standards, They are constructed of sturdy 1-mm thick single-wall, High-performance, self-latching doors close easily and securely for maximum protection under fire conditions.

For added security, each cabinet comes with handle that does not require manual rotation to engage the mandatory latch. Cabinets include a cylinder lock and key set, or you can choose to use your own padlock. Reflective warning are highly visible under fire conditions or during power outages when illuminated with a flashlight.

Galvanized steel shelves for versatile storage. Cabinets also feature dual vents with flame arresters, grounding connector, . Durable lead-free epoxy powder-coat finish provides excellent chemical resistance.
